

## CASH SERVICES accelerates its deployment

Paris, February 11, 2025

Since the beginning of 2025, CASH SERVICES has been accelerating the deployment of its new service offering for banking ATMs and is gradually establishing itself in the branches of its four partner banks : BNP Paribas, Crédit Mutuel, CIC, and SG, across France.

By 2026, nearly 7,000 CASH SERVICES sites will be deployed, both within and outside branches, to offer customers of the four partner banks a comprehensive service package: free access to cash withdrawals in euros , the ability to deposit bills and coins, check deposit solutions, a wide range of self-service banking options, fund transfers, and instant access to account balances and transaction history.

CASH SERVICES provides an easy solution to meet customers' daily needs, at any time, and make them fully independent, **thanks to a wide network across France, Monaco and Corsica (up to three times additional ATM points).**

**CASH SERVICES simultaneously announces the launch of its Local Government Offer from the second quarter of 2025. This new and customizable solution will provide the best cost-effective response to French local authorities wishing to deploy an ATM.** This initiative will offer each municipality, even those without local partner branches, the opportunity to provide its residents with a nearby banking contact point. This is such a real lever for strengthening financial inclusion across the country.

CASH SERVICES offers sustainably preserve a dense network of access points in order to meet the needs of territories and their residents.

All CASH SERVICES sites and useful information are available on the website **[www.cash-services.fr](http://www.cash-services.fr)**.
